- **Provides a benefit package for** Highly Compensated Employees.
- **Avoids ADP Testing** which eliminates refunds to owners and other highly compensated employees
- **Minimizes company contributions** to non-owner employees.
- **Roth deferrals available.**
- **Deferral Limits:**
 - \$19,500 – For those under age 50.
 - \$26,000 – With catch-up contributions for those age 50
- **Other Limits:**
 - \$57,000 – Allocation limit for those under age 50.
 - \$63,500 – Allocation limit for those over age 50.

QUICK TEST

- Are the owners older than most of the employees?
- Does the owner have a higher income than the majority of employees?

Cross Tested 401(k) Plan - Optional Safe Harbor 3% NEC

Flexible plan that allows the employer contribution to be higher for owners and minimum contributions for the rank and file employees.

How it works

- **Tiered Contributions:** Owners and other favored employees receive significantly higher percentage of company contributions.
- **Increase Benefit to Owners:** Annual contributions for owners can be as high as \$57,000 (or \$63,500 if owner age 50 or older).
- **Low Employee Costs:** Annual contributions for other employees can be as low as 5% of other eligible employees' compensation.
- **Safe Harbor Cross Tested 401(k):** Combine a Safe Harbor 3% NEC with the Cross Tested Allocation Method can maximize contributions to owners without increasing company contributions.

Example: Traditional 401(k) vs. Cross Tested Safe Harbor 401(k)

Assumptions & Results: In both examples below, the owners receive the maximum contribution (sources: \$26,000 Deferral, 3% Safe Harbor, Profit Sharing). The Cross Tested 401(k) Plan reduces the company contribution by \$24,167.

	Age	Annual Compensation	Traditional Plan	Cross Tested Plan
